This July Pryamid Atlantic Art Center sponsored workshops on handmade paper, bound books, marbled paper and printmaking at the Museo Della Carta E Della Filigrana, the Paper and Water mark Museum, of Fabriano, Italy. After 3 weeks of creative work, we went on excursions to the medieval cities of Florence, Gubbio, Urbino, Assisi and to Sirolo Beach on the Adriatic Sea! Add the food and the many photos I took this was an experience worth sharing with you. So join me at the studio for a taste of the arts, foods, the sites and sounds of Italy's Marche region!
